QUBE ON THE CLOUD

ORACLE Gold Partner

Quick & Cost-effective Deployment of Oracle Retail

Quickborn's QUBE ON THE CLOUD is **a fully packaged end-to-end solution for Oracle Retail System implementation**. With QUBE ON THE CLOUD, retailers can deploy Oracle Retail merchandising, planning, stores and e-commerce applications in a Cloud model quickly and cost-effectively, utilizing best-practice retail business processes. QUBE ON THE CLOUD eliminates challenges around technical infrastructure, the need to hire IT-staff and buying hardware; it includes everything retailers need to **get up and running with Oracle Retail systems — and achieve value — rapidly**.

What we deliver:

✓ Pre-installed development, test and production environments
✓ Pre-configured and simplified system set-up
✓ Pre-built high quality training materials
✓ Pre-designed batch schedule

Quickborn QUBE ON THE CLOUD uses a proven agile methodology that **speeds up the implementation and reduces complexity**:

✓ No Lengthy CRP
✓ Immediate exposure to Applications
✓ Training Focused
✓ Reduced risk (Technical, Product, Schedule)

BENEFITS:

- **Accelerated implementation of Oracle Retail**
- **Best practice retail business processes**
- **Reduced Total Cost of Ownership**
- **Deploy applications modularly as needed**
- **Cloud model speeds and simplifies upgrades**

CLOUD BASED IMPLEMENTATION OF ORACLE RETAIL APPLICATIONS:

- **MERCHANDISING**
- **PLANNING**
- **STORES**
- **E-COMMERCE**

Quickborn's QUBE ON THE CLOUD offering includes **Managed Services and support** ensuring high availability and performance of your applications and freeing up your resources to focus on their core business activities.

QUBE ON THE CLOUD brings you the benefits of cloud-deployed Oracle Retail without capital investment in hardware, databases and staff. We provide **Cloud Services** including 24/7 support and maintenance for your applications and environments.
